

What is a heavy duty rack mountable sliding shelf?

Kendall Howard manufactures and stocks two robust models of solid and vented Heavy Duty Rack Mountable Sliding Shelves, capable of holding up to 200 lbs. each. These sliding rack shelves are ideal for servers or heavy components, providing the flexibility to slide them out and efficiently access equipment.

What is a sliding rack shelf?

These sliding rack shelves are ideal for servers or heavy components, providing the flexibility to slide them out and efficiently access equipment. The sliding shelf can be mounted in 4-post racks and cabinets with various depths. The 4-point mounting style can adjust from 24" to 36" deep to suit your particular network racking solution.

What is a rack mount sliding drawer?

When arranging a server cabinet layout and designing an optimal hardware allocation, such rack mount sliding drawers are used to increase the usable space and ensure more ergonomic space allocation. A rack-mount slide-out shelf is a flat solid metal construction made from highly durable metal sheets.

What is a rack shelf slide block?

No more sliding shelves extending out when you don't want them to! The Rack Shelf Slide Block (RSSB) mounts over any existing mounted equipment using an open slot design that conforms to 1U or 2U EIA spacing. This tool will prevent the sliding shelf's unexpected movement when tabs are down.
