

What is a waterproof rack mount cabinet?

Already used throughout Europe to house servers and other rack-mountable devices, the 700 series Waterproof Rack Mount Cabinet can be supplied with a surge-protected mains power block, air circulation fan (s), and an optional heater unit for cold environments.

How do I know if my server rack is ip45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

Are Tripp Lite cabinets PCI-compliant?

Yes. All of Tripp Lite's Cabinets are PCI-Compliant. Sturdy steel panels surround all sides of equipment, preventing unauthorized access to networking devices and ensuring the physical security of equipment that processes, stores and transmits credit card data.
