

What sizes are available for MSK kiosks?

Choose from nine standard sizes including single, double, or triple door openings to best fit your application. MSK kiosks have a press-formed and welded mild steel construction and are supported by the appropriate certification to IP55 of BS5490 to give excellent weather protection and good earth continuity.

What makes our cabinets & kiosks a good choice?

All our cabinets and kiosks have quality fittings, resistance to fire, and block corruptions from weather conditions. Outdoor conditions are generally demanding so we need to provide a design that can withstand these harsh conditions with adequate ventilation.

What paint do you use on a kiosk?

The paint finish is two coats of pure polyester powder paint to give a minimum dry film thickness of 50 microns, the finished colour is dark green shade RAL 6005. Each kiosk features twin air vents, lifting brackets, floor fixings, earthing points, full height mounting rails, internal hinges and triangular door locks as standard.
