Why should you choose an IP54 enclosure?

Offer different sizes and shapes with many mounting ways Typically, IP54 enclosures offer protection for electronic or mechanical components. They also protect against voltage and moving parts, as well as against splashing water from any direction, thus ensuring the safety of people in contact with the enclosure.

What are electrical kiosks?

Complex electrical applications require separate stand-alone systems that will operate under harsh circumstances. Such complete constructions are known as electrical kiosks. Due to the wide range of applications where such kiosks might be used, we've decided to gather all such info in one comprehensive guide.

Where should industrial electrical kiosks be placed?

When it comes to massive industrial electrical kiosks, it is obvious that the only option is to place them on the ground. If you are using such a kiosk outdoors you should pick the most appropriate place for it. Consider the possibility of flood and heavy rains and pick the flat spot that is situated above the ground surface.
