

What is a stainless steel cooling rack?

Stainless steel cooling racks are the perfect versatile piece of equipment for your bakery, restaurant, cafe, or catering business. These products have feet on the bottom, which raise them off the ground and help your food cool quickly.

What is a 12 x 17 stainless steel cooling rack?

The Hamilton Housewares 12" x 17" Stainless Steel Cooling Rack is used for cooling and cooking. It offers ample space for your cooking creations and is the only rack of its type made of stainless steel. It is equally adept at cooling baked goods and cooking in the oven or on the grill.

What are the benefits of stainless steel cooling racks?

In addition to speeding up the cooling process, stainless steel cooling racks protect the crispiness and texture of your food by draining away excess grease. As an added bonus, these products have a stainless steel construction, which gives them long-lasting durability and makes them easy to clean and maintain.
