

30 Gallon IP55 IP65 power distribution underground housing

What is an IP rated enclosure?

IP enclosures provide protection for electrical and electronic devices in environments prone to dust, dirt and moisture. Designed for indoor or outdoor use, Polycase's IP rated enclosures and electrical boxes include a waterproof gasket between the base and cover.

What is an IP66 enclosure?

Let's use an IP66 enclosure as an example. The first digit, 6, denotes a completely dust-tight enclosure that's completely sealed against solid foreign objects such as dust, lint and shavings, as well as against accidental contact.

We have durable enclosure options meeting IP65, IP66, IP67 and IP68 ratings, making them ideal for use in virtually any industry or application. We also offer a full selection of NEMA enclosures and boxes.

IP Ratings help ensure that your enclosure will perform to the requirements you need. For example, for a telecoms or rail network operator the IP rating provides more detailed information than vague terms ...
