What is a power supply kiosk?

Power supply kiosks form a part of the Ritherdon range of Feeder Pillars. A power supply kiosk is a robust, weatherproof enclosure which can be either permanent or temporary in type. They are much faster to install than a brick built construction while being much more damage resistant than a plastic type enclosure.

What is a temporary power supply kiosk?

Typically, a temporary kiosk would typically be used to supply electricity to a large building site while meeting the specifications of the DNO. Ritherdon power supply kiosks are manufactured to ENW specification as standard.

Why are kiosk substations important in Australia?
