

What is a Kooltronic rack mount AC unit?

A Kooltronic rack mount AC unit is a type of air conditioner designed for internal horizontal mounting, as opposed to external panel, door, or top mounting. Kooltronic offers two model options for rack mount air conditioners.

What is a rack mount air conditioner?

A rack mount air conditioner is an air conditioning unit designed for installation in a server rack. Rack mount air conditioners, such as the RML model, offer a cooling capacity of 5,000 BTU/H and a choice of up to five airflow patterns. Using supplied baffle plates, the RML AC unit can easily be configured for various applications within a data storage server rack.

Can Kooltronic rack mount air conditioners be supplied with side rails?

If preferred, side rails can be supplied for Kooltronic Rack Mount Air Conditioners. These air conditioners are well suited for server enclosures or equipment rack cooling that requires horizontal mounting. Click to learn more.
