

How do I choose a battery storage cabinet?

When selecting a battery storage cabinet, look for the following: Fire resistance from inside and out (90 minutes minimum). Integrated ventilation to prevent heat buildup. Built-in charging equipment rated for lithium-ion batteries. Fire alarm systems and potential suppression modules. Forklift base for emergency relocation.

What is a lithium ion battery charging and storage cabinet?

The new Justrite lithium ion battery charging and storage cabinet provides the ideal storage solution. Featuring ChargeGuard(TM) technology, this new cabinet was designed especially for minimizing the risks of battery fires and thermal runaway that arise when storing and charging lithium ion batteries in the workplace.

Does a lithium battery storage cabinet need ventilation?

Without integrated ventilation, charging batteries within the cabinet significantly raises fire risk. Many lithium battery storage cabinets double as charging stations. If you plan to charge batteries in storage, ensure the cabinet includes: Factory-installed, grounded metal-encased electrical outlets.

How many lithium ion batteries can a storemasta Battery Cabinet charge?

A Storemasta lithium-ion battery cabinet can simultaneously charge multiple workplace batteries in a safe and protected environment. Storemasta offers an 8 and 18 outlet model of battery cabinet, which allows the user to charge up to 8 or 18 li-ion batteries - depending on the chosen model.
