

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

What is an outdoor IP65 water proof enclosure with ABS plate?

This Outdoor IP65 Water Proof Enclosure with ABS Plate will be the solution! This product is made of high-grade polycarbonate or ABS and is typically designed for enclosing electrical and electronic components and even complete small-scale controllers. It comes with a mounting plate so that it is easy to mount any device in the box.

What are eco-ESS external battery & inverter enclosures?

Eco-ESS External Battery & Inverter Enclosures are designed to provide robust and secure housing for battery storage solutions outdoors. These enclosures are equipped with thermostatically controlled heating and cooling systems, ensuring your batteries remain within optimal temperature ranges, regardless of external weather conditions.

How do I Configure my outdoor solar battery enclosure?

You can choose any configuration for your outdoor solar battery enclosure. Configurations are customized using racks, dividers, inner compartments, and separate doors. Racks and dividers can be used to configure the space inside your battery enclosure. Racks can be used as tiers for many batteries.
