

What is a cabinet door stop Kit?

Keep your home safe from damage - Our strong, flexible, vinyl-coated, American made, stainless steel cabinet door stop kit is the perfect solution for limiting the swing of your cabinet doors. Inhibit the door, knob, pull or handle from damaging adjacent walls, mirrors, cabinets, towel bars, shower doors, toilets or appliances.

What is a cabinet door stopper made of?

Our cabinet door stopper is made with flexible 304,7&#215;7 stainless steel rope for superior strength and long-lasting, trouble-free operation for years to come - even in the harshest of environments like beachfront homes, condos, boats or yachts.

How does a cabinet door restraint work?

When installed properly, the door restraint folds neatly out of the way when closing the cabinet door. The door opening angle is fully adjustable before final installation. You control the mounting points to customize the final door opening angle. The opening angle of the door is determined by where you mount the cabinet door restraint.

What are the benefits of stainless steel cabinet door restraints?

By comparison, here are some of the benefits of our stainless steel cabinet door restraints: Our restraints are made of stainless steel and made for a lifetime of use. No plastic here. Our restraints remove the stress and strain away from the hinge and place it all on the restraint.
