

Cafe azul self-cooling with grey Electrical Box

What is an electric cool box?

An electric cool box is a portable refrigerator that uses electricity to keep your food and drinks cold. It's a great option for camping, picnics, road trips, or any situation where you need to keep items chilled. Electric cool boxes are available in a variety of sizes, capacities, and features, so you can find one that fits your needs and budget.

What makes Café Azul unique?

At Café Azul, our commitment to the environment isn't just a part of our business - it's at the core of our ethos. We're not content with just existing; we're on a mission to make a positive impact. Our passion for the environment drives every decision we make, inspiring us to embrace innovative solutions that leave a lasting legacy.

How to choose an electric cool box?

The cooling performance of an electric cool box is crucial, as it determines how effectively it can keep your food and drinks cold. Look for an electric cool box with a low temperature range, ideally reaching at least 32°F (0°C) or lower.

Which cool box is best?

Compressor cool boxes are generally the best option for keeping food and drinks cold for extended periods, while thermoelectric cool boxes are a good choice for shorter trips or for situations where space or power consumption are limited. How do I choose the right electric cool box for me?
