

What is an IP54 rating?

A product with an IP54 rating is protected against quantity of dust that could interfere with the normal operation of the product but is not fully dust tight. The product is completely protected against solid objects. It is also protected against water splashing from any angle.

Why should you choose an IP54 enclosure?

Offer different sizes and shapes with many mounting ways Typically, IP54 enclosures offer protection for electronic or mechanical components. They also protect against voltage and moving parts, as well as against splashing water from any direction, thus ensuring the safety of people in contact with the enclosure.

What is an IP55 rating?

A product with an IP55 rating is protected against quantity of dust that could interfere with the normal operation of the product but is not fully dust tight. The product is completely protected against solid objects. It is also protected against water jets projected by a nozzle (6.3mm) from any angle.

Are KDMFAB IP54 enclosures suitable for outdoor equipment?

In addition, our IP54 enclosures are dust and splash proof, making them suitable for a wide range of outdoor equipment. KDMFAB IP54 enclosures are suitable for a wide range of applications.
