How to enclose solar batteries h155cm X w70cm?

What is a simple, cost-effective way to enclose the solar batteries (h155cm x w70cm)? I've thought of on-wall steel shed, DIY wooden cabinet or just a shade cloth. The batteries are IP rated, so water is not an issue. The summer sun might affect the battery performance. The batteries are bolted to the brick wall with no wires on the back.

What is a battery enclosure?

This place is called a "battery enclosure", or what is essentially a vented box made from aluminum or fiberglass or steel. This product is perhaps more commonly called a "solar battery box"; but is also referred to as a "pole mount battery box";.

Can I build an enclosure over a lithium battery?

Being lithium I certainly would not build any enclosure over them without consulting the installers/manufacturers/supplies this is for several reasons, you might cause overheating and expensive damage to the cells or thermal runaway, you might void your manufacturer warranty.
