

Clean shield endoscope battery storage unit

What is a cleanshield endoscope storage cabinet?

The CleanShield Endoscope Storage Cabinet provides a proper storage environment for protecting delicate endoscopes from possible damage while minimizing environmental contamination after disinfection. During storage, disinfected endoscopes are hung securely in a vertical position while filtered ambient air bathes the chamber and disinfected scopes.

How are disinfected endoscopes stored?

During storage, disinfected endoscopes are hung securely in a vertical position while filtered ambient air bathes the chamber and disinfected scopes. Room air is drawn through pre-filtration and HEPA filtration before contacting the disinfected endoscopes.

Room air is drawn through pre-filtration and HEPA filtration before contacting the disinfected endoscopes that are securely hung inside the CleanShield® storage cabinet. Specialized fixtures ...
