

What is a steel frame closed panel system?

Steel frame closed panel systems are valued for strength and durability. Steel's properties make it ideal for structures requiring high load-bearing capacity and resistance to fire, pests, and moisture.

What is on-site Assembly of prefabricated steel houses?

On-site assembly of prefabricated steel houses is carried out by our expert teams and we deliver turn-key building including waste and clean water installation and painting. Modern steel frame homes are becoming more popular over the years especially with materials costs getting higher. Delivered with a design of your choice...

Why do steel homes have a longer service life?

Steel homes have longer service life compared to other types, e.g. reinforced concrete buildings, since all the members are prefabricated using highest quality materials and minimizing production errors.

Can I customize my Steel home?

You can customize your steel home with a layout that best fits your needs. With more than 40 years of experience supplying metal homes, metal carports and related buildings for residential and commercial use, we know the ins and outs of the steel homebuilding industry, and our prefab home kits allow for easy delivery and erection.

Logging into your RocketPlay account is just as easy as registration. On the RocketPlay homepage you'll find a "Login" button. Click it and enter your registered email address and password.
