How to enclose solar batteries h155cm X w70cm?

What is a simple, cost-effective way to enclose the solar batteries (h155cm x w70cm)? I've thought of on-wall steel shed, DIY wooden cabinet or just a shade cloth. The batteries are IP rated, so water is not an issue. The summer sun might affect the battery performance. The batteries are bolted to the brick wall with no wires on the back.

Can solar batteries be installed outside in the UK?

Solar PV Battery and Inverter, mounted in an outdoor enclosure built by Grid Neutral. Yes- solar batteries can be installed outside in the UK, but only if they are housed in a suitable weatherproof enclosure and the installation meets safety and warranty requirements.

Are solar panels for balconies sustainable?

Taking living sustainability to a new level, solar balconies incorporate panels into the flooring or handrails. This not only creates a green source of energy but also provides an aesthetically pleasing design element. Here are a few things to note: Solar panels for balconies come in various sizes and shapes to fit your outdoor space perfectly.

Can I build an enclosure over a lithium battery?

Being lithium I certainly would not build any enclosure over them without consulting the installers/manufacturers/supplies this is for several reasons, you might cause overheating and expensive damage to the cells or thermal runaway, you might void your manufacturer warranty.
