

# Contemporary ip65 stainless steel outdoor solar battery casing

What materials are used for IP65 enclosures?

The materials used for IP65 enclosures aren't different from materials used for other types of enclosures. They can be made from carbon steel,galvanized steel,and stainless steel- usually of the grades 304,316,or 316L. Carbon steel is usually duller than stainless steel. It is also magnetic and more malleable since it only has iron and carbon.
