What is a prefabricated electrical building?

Panel Built's prefabricated electrical buildings offer a durable and scalable solution for housing electrical equipment in industrial and remote environments. Our E-Houses are custom-designed for quick deployment and minimal on-site installation, ensuring a high-quality, weather-resistant, and cost-effective solution.

Are modular electrical buildings fabricated off-site?

A: Our modular electrical buildings are fabricated off-site using either welded steel-frame or panelized wall systems. These prefabricated structures are built to meet your specific electrical and environmental requirements, ensuring fast deployment with minimal on-site work.
