

Custom outdoor 30 Gallon underground Server Rack

What is an outdoor server rack?

AZE's outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The outdoor server rack cabinet comes 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

What is a waterproof server rack?

Waterproof Outdoor Server Rack Designed for outdoor server installations, these racks are built to withstand rain, snow, and extreme temperatures. Features rugged construction and lockable doors for added security. Ideal for telecom infrastructure and industrial applications. 8. Waterproof Rack Mount Cabinet
