

Custom outdoor integrated covered station steel industrial storage

Who is steel storage systems?

Since 1964, Steel Storage Systems has engineered, manufactured, and installed custom metal racking and material handling systems for a wide range of metals industry applications. We work closely with our customers to improve material flow, optimize production efficiency, and build systems that match each facility's needs.

Where are commercial covered parking systems made?

Our commercial covered parking systems are full-engineered and built in our Arizona manufacturing facility with high quality US Steel. We then carefully pack your system for shipping to your job site. Your preferred contractors will be able to install them without difficulty. Absolute Storage LLC is a GSA contract holder.

What are the different types of outdoor storage facilities?

There are 3 main types of outdoor storage facilities: open outdoor storage, semi-open outdoor storage, and metal canopies. An open-air outdoor warehouse is most often made up of completely uncovered racks. These may be cantilever or pallet racks. However, these racks can also be fitted with canopies or sheet metal cladding on the bottom or sides.
