

Can a cooling tower be customized?

We are able to customized our Cooling Tower to solve or to suite various stringent site condition.

Who is matrix cooling?

Matrix Cooling is your one stop cooling solution provider and we provide cooling solutions for a variety of industrial and commercial applications. The products we supply are categorized as follows: Field-Erected Cooling Towers Your worry-free customized cooling tower solution Due to its ...

What is a polacel CMDI cooling tower?

These cooling towers are mainly used on the roof of a data-centre and crypto industry. For larger cooling capacities, the field-erected cooling towers Polacel CMDI can be offered up to 100MW per unit. These cooling towers are mainly used larger manufacturing plants, power generation facilities, hydrogen and refineries.

What is a modular cooling tower system?

The modular cooling tower system can be expanded and customised, and there are standard solutions available for various capacity requirements. This system is standardised to a great degree and has been adapted to a great number of customer wishes.

Whether you want to cool a large space without relying on a heat exchanger or need to replace your cooling capacity because of an emergency like a fire, we'll provide the right solution.

Easy Cool Refrigeration and cool room specialises in cold room construction in Malaysia. Our strong suit in the design and installation of customised industrial cold rooms has enabled us to exceed ...

PLC, Pressure Vessel, Gear, Motor, Engine, Bearing, Gearbox, Self-cleaning air filter, Raw air compressor, Air pre-cooling unit, Air purification system, Fractionating column cold box system, ...

Daikin Modular Solutions redefines Central Utility Plants (CUP) by delivering tailored, pre-fabricated or factory-assembled systems that streamline installation, enhance performance, improve space ...

This is a series of large industrial cooling towers for power generation, steel and aluminium processing, cogeneration and other large production sites. Efficiency, high performance, reduced installation and ...

SPX Cooling Tech, LLC is a leading global manufacturer of cooling towers, evaporative fluid coolers, evaporative condensers and air cooled heat exchangers. For a century, we have provided ...

Color: Customized Color; Application: Hotel Subway Station Shopping Mall; Capacity: 20-150 Pcs; Usage: Subway Station Airport Shopping Mall; Size: Customized; Capacity: 20-150 ...

Our engineers provide customized modifications to meet your specific requirements. These cooling towers are mainly used on the roof of a data-centre and crypto industry. For larger cooling capacities, ...

SelfChill is your brand for sustainable cooling solutions. We offer a variety of system configurations for different uses: solutions for cold chains in the agricultural sector, air conditioning for residential ...

Matrix Cooling has designed and installed numerous Field-Erected Cooling Tower for industrial cooling needs, covering industries such as power plant, refineries, downstream petrochemicals, ...

Matrix Cooling is your one stop cooling solution provider and we provide cooling solutions for a variety of industrial and commercial applications. The products ...

If you are looking for the perfect answer for temperature control, try portable misting fans and cooling stations. Portable misters help provide cooler temperatures for ...
