

## Electrical Box face IP55 IP65 over battery opening

How do IP55 & IP65 enclosures compare?

Here is a table that shows how IP55, IP65, and IP66 compare: IP55 enclosures protect against dust that could interfere with normal operation and can handle water jets from any angle. IP65 enclosures are fully dust-tight and shield your equipment from low-pressure water jets.

Is a CyTech outdoor cabinet IP55 or IP65?

For general-purpose outdoor use, IP55 may be sufficient, but for environments with heavy dust or water exposure, IP65 is a better option. Cytech introduces the IP55 Outdoor Cabinet and IP65 Outdoor Cabinet, two innovative solutions engineered to deliver maximum protection for electronic equipment in outdoor environments.

Why do you need an IP65 rating for your outdoor electrical enclosure?

Regular inspections help you avoid unexpected failures due to water or dust ingress. You get strong protection when you choose the IP65 rating for your outdoor electrical enclosure. The IP65 rating means your equipment receives complete protection against dust and oil.

What is an IP65 enclosure?

An IP65 rating means the product is completely protected from dust--none can get inside. That makes it great for dusty places. Just like IP55, it can also handle water jets from any direction. But IP65 enclosures are usually built stronger, so they last longer in rougher conditions.

Compare IP55, IP65, and IP66 to choose the right Outdoor Electrical Enclosure. Find the best Electrical Enclosure for dust and water protection outdoors.
