

What is a 25 mm pitch rail for a compact enclosure?

Rail for flexible interior installation on a 25 mm pitch pattern in AX compact enclosures. Now with an increased load-bearing capacity of 100 N for mounting on the integrated enclosure bosses. For mounting in the enclosure, no machining required. Suitable for all-round mounting on the sides, base and roof areas.

What are DIN rails TS & mounting rails?

DIN rails TS and mounting rails are one of the few standardized components in electrical switchgear. The DIN rails and C-profiles are used for mounting and fixing electronic and electromechanical components such as terminal blocks, relays or even power supplies.

What is a DIN rail?

DIN rail is a mounting system used to secure electrical components to industrial control panels. In order to secure electrical components to DIN rail, the components must have a DIN rail mount. The component attaches to the DIN rail by pushing down on one side and clipping it into the DIN rail.
