

What is a power train unit (PTU)?

Power Partners Group (PPG) understands the need for adaptable power solutions that can be easily deployed and redeployed as your needs change. Our Power Train Units (PTUs) offer a compact, mobile, and customisable approach to power generation, providing reliable electricity wherever and whenever you need it.

What are Power Train Units (PTU)?

What is a UTEC mobile substation?

UTEC's modular solution, assembled on a self-supporting transformer skid or trailer, provides a turnkey power substation. With core features like onboard protection, control, and automation devices, NEMA 3R skid for easy transportation, and scalability for UTEC's mobile substations contribute to enhanced power reliability and safety.

Are UTEC Mobile substations rust-free?

UTEC's compact mobile substations boast cutting-edge design concepts and technology. From galvanized steel plate shells to standard container materials, these substations guarantee 20 years of rust-free operation.

Our mobile Power Distribution Units are the ideal solution for safe and flexible power supply at changing locations. Thanks to external handles, they are particularly easy to carry and transport.
