

What does IP55 mean on a patch cabinet?

IP55 means that the rack is dustproof and spraywater-proof. So with our 19-inch outdoor patch cabinet, you do not have to worry about the safety of your network equipment. Everything is safely stored in this patch cabinet. Which outdoor patch cabinet do I need?

What is an outdoor server rack?

An outdoor server rack or patch cabinet is a 19-inch cabinet that has four 19-inch mounting profiles. In these profiles, you directly attach 19-inch network equipment, such as a rack server, patch panel, switch or UPS. The difference between a 'normal' server rack and an outdoor server rack is that the outdoor rack is weatherproof.

What is a weatherproof rack cabinet?
