There are dozens of steel houses, mostly built in the 40s, 50s, 60s, and they all have different constructions and problems, knowing the type will allow you to look it up and see exactly ...

There were few architects whose pre-war interest in steel houses survived the war years, most of the new building of the late 1940s and early 1950s being the work of a younger generation.

This led, for example, to the Figure 1 Telford steel framed house -1920s - this was one of the steel clad systems. However, of the total four and a half million houses erected in Great Britain between 1919 ...

The 1950s were a time of change and growth for the United States. This decade saw the rise of the suburbs, the development of the jet age, and the end of World War II. In the kitchen, this ...
