

What are es455 rack cabinets?

Designed for use in industrial applications, the ES455 Series are wall-mounting, 19 inch, steel rack cabinets, offering sealing to IP55 and impact resistance to IK10, for deployment in open areas subjected to falling dirt and wind-blown dust particles, rain, snow or splashing water.

Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab, offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

What can IP55 enclosures do for You?

IP55 enclosures offer a range of customization services to meet your specific needs. Whether you need cutouts for cables, insulation for temperature control, or hinges, locks, and latches for secure access, these enclosures can be tailored to fit your application perfectly.

What is a standardized IP55 protection code?

The IEC's standardized International (or Ingress) Protection Code system is used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit). Continue reading to learn more about IP55 Standard Protection Specifications.
