

What makes Texas a good place for battery storage?

Fast permitting processes and a vast amount of land-- mainstays of Texas' low regulation, business-friendly environment and the same features that have allowed wind and solar power to thrive in Texas -- make it easier for developers to enter the battery storage market.

What is the largest battery storage project in Texas?

The largest battery storage project in Texas is SMT Ironman Battery Storage Plant as of December 2025. The project is located in Brazoria, TX and has a capacity of 304 MW. Cleanview tracks 10,000+ power projects, 1,000+ data centers, and 700+ developers in the U.S. Each month we spend hundreds of hours researching and updating our database.

How many battery storage projects were built in Texas in 2024?

In 2024, there were 58 battery storage projects built in Texas. Texas is served by ERCOT, which operates as the region's Independent System Operator (ISO), managing the electrical grid and overseeing the interconnection process for new battery projects.
