

Ip55 ip65 industrial electricity housing 14u top storage

How do IP55 & IP65 enclosures compare?

Here is a table that shows how IP55, IP65, and IP66 compare: IP55 enclosures protect against dust that could interfere with normal operation and can handle water jets from any angle. IP65 enclosures are fully dust-tight and shield your equipment from low-pressure water jets.

Why should you choose an outdoor electrical enclosure with an IP55 rating?

When you choose an outdoor electrical enclosure with an ip55 rating, you get a solid balance between protection against dust and water. The ip55 rating means your equipment receives almost complete protection from dirt, dust, oil, and other non-corrosive materials. You also gain complete protection from contact with the enclosed equipment.

Why do you need an IP65 rating for your outdoor electrical enclosure?

Regular inspections help you avoid unexpected failures due to water or dust ingress. You get strong protection when you choose the ip65 rating for your outdoor electrical enclosure. The ip65 rating means your equipment receives complete protection against dust and oil.

Are Saipwell electrical cabinets IP65 rated?

Saipwell offers electrical cabinets with the ip65 rating. These cabinets use durable materials like polycarbonate, ABS, steel, and stainless steel. You can customize the size and design to fit your needs. The ip65 rating ensures your enclosure keeps your electrical components safe from dust and water, even in busy outdoor areas.
