

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

What is IP65 stainless steel enclosure?

IP65 robust stainless steel (SUS304) enclosures for superior weather and corrosion resistance. Suitable to be used in machine industry, industry plant, food plant or chemical plant. Easy opening latch/hinged models and screw closing models are available. IP65 stainless steel enclosure with screw fixing cover.

What does IP65 mean?

The second digit, 5, stands for watertight protection against dripping, splashing, leaking and low-pressure water jets. IP65 is a common rating for commercial and industrial enclosures that need strong basic protection. IP65 Electrical Enclosures from Polycase

What is IP65 rated lighting?

In outdoor lighting systems for example, IP65 rated fixtures are preferred to protect electrical parts against rain, dust, and high humidity. Similarly, in manufacturing plants, these enclosures keep sensitive devices like control boards or sensors free from dust or water splashes while the machines are in operation.

Good Performance: The junction box is corrosion resistant, anti static, insulated, waterproof, and has stable performance. Durable: The junction box is anti and anti aging, with high flame retardancy and ...
