

What is an IP67 enclosure?

IP67 enclosures are among the most protective types of electrical enclosures available today, with the ability to act as either indoor or outdoor enclosures, thanks to their durable weatherproof gaskets. Specifying an IP67 enclosure may be the right choice for you if:

Are polycase enclosures IP67 rated?

Polycase's IP67 rated enclosures and boxes provide protection for your electronics in indoor and outdoor applications. Meeting IP67 requirements ensures waterproof enclosures provide security for housing internal components in wet environments.

How do I know if my server rack is IP45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

How do I choose the right outdoor server rack enclosure?

Choosing the right outdoor server rack enclosure is important to ensure your equipment stays protected and secure. Some factors to consider when selecting an outdoor server rack include the level of protection needed, the size and capacity of the rack, and the type of equipment to be housed.
