

How does kioskmedia manage kiosks?

It is vital for organizations to be able to remotely monitor and manage their kiosks. KioskMedia delivers this capability through its Kiosk Management System (KMS), which allows administrators from a central location to manage a distributed network of self-service kiosks. In this way the health-status of the kiosk is being proactively monitored.

What is the Aten remote Kiosk Management solution?

With BIOS-level access and power management features, the ATEN Remote Kiosk Management Solution allows you to access and monitor kiosk computers, and even turn them on, off and reboot from your control room.

What is a Kiosk Management System (KMS)?

KioskMedia delivers this capability through its Kiosk Management System (KMS), which allows administrators from a central location to manage a distributed network of self-service kiosks. Using KMS will minimize downtime, reduce costs and extend the life cycle of a kiosk system.

How can a kiosk management system help your business?

Thus it is vital for your company to be able to remotely monitor and manage your kiosk. KioskMedia delivers this capability through its Kiosk Management System (KMS), which allows administrators from a central location to manage a distributed network of self-service kiosks.
