

New outdoor solar battery rack double door fronts

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

Where are solar racking solutions made?

We proudly manufacture solar racking solutions in the USA, using 100% domestic steel to meet Inflation Reduction Act solar content incentives. Our solar mounting structures are engineered for strength, durability, and ease of installation, ensuring long-term performance in commercial and utility-scale solar projects.

What services does a solar racking company offer?

Specializing in solar carports, walkway canopies, post-driven and ballasted ground mounts, and ballasted roof mounting systems, we offer a full spectrum of services. From custom solar racking design and manufacturing to expert mechanical installation, we ensure your solar projects are built for success.
