

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

How do I choose the right outdoor server rack enclosure?

Choosing the right outdoor server rack enclosure is important to ensure your equipment stays protected and secure. Some factors to consider when selecting an outdoor server rack include the level of protection needed, the size and capacity of the rack, and the type of equipment to be housed.

How do I know if my server rack is ip45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

What is a polycase IP65 rating?

Polycase IP Ratings are based on the NEMA 250 to IEC 60529 conversion table published by NEMA.org. Learn more about what an IP65 rating means and what you can expect from our IP65 electrical enclosures below. What Does an IP65 Rating Mean?
