

What is a self cooling server rack?

In-Row Precision Cooling System - 25.8... The SmartRack®; 5.5 kW Self-Cooling Server Rack is designed for server rooms or similar single-rack installations, particularly at the edge of a network.

What is a self-cooling rack?

Self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack installations, particularly at the edge of a network. The warranty on this product has expired. If you need assistance, please contact us. Need help with your purchase?

What is a SmartTrack®; 5.5 kW self-cooling server rack?

The SmartRack®; 5.5 kW Self-Cooling Server Rack is designed for server rooms or similar single-rack installations, particularly at the edge of a network. It provides closed-loop precision cooling for reliably protecting mission-critical equipment from overheating in environments without room for a bulky in-row unit.

What is an outdoor server rack?

AZE's 19" outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions.

AZE's 19" outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions.

Eaton SmartRack Pre-Configured, Self-Cooling Modular Data Center combines IT rack and cooling enclosures to form one compact, configurable performance optimized data center (POD).

Self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack installations, particularly ...

The SmartRack®; 5.5 kW Self-Cooling Server Rack is designed for server rooms or similar single-rack installations, particularly at the edge of a network. It provides closed-loop precision cooling for ...

The Vertiv VRC solves these problems with a rack-based solution that packs 3,500 watts of scalable cooling capacity into an efficient, easy-to-deploy IT-grade system, saving you space, time, and money ...

a building air conditioning system. Until now, available cooling solutions either lacked the capacity, were too large, or didn't work with the building architecture. The Vertiv VRC split rack cooling system ...

This addition to Eaton's family of self-cooling racks has a 5.5 kW cooling unit pre-installed at the bottom of a 42U rack enclosure to provide the highest self-contained cooling capacity available in a rack ...

Combines IT rack and cooling enclosures to form one compact, configurable performance optimized data center (POD). The growth of edge computing and distributed AI has increased demand for small ...

Eaton self-cooling rack enclosures are self-contained, single-rack closed-loop systems with high cooling capacity. The SmartRack series provides easy installation and deployment and is ideal for micro data ...

Cool your hot equipment in our most popular Cruxial Server Rack. The Cruxial-Cool-42u Air Conditioned Server Enclosure keeps your equipment cool by combining our top selling perforated 42u server rack ...

AZE designs and manufactures outdoor telecom cabinet enclosure from 12U to 42U, our innovative solutions to meet your demand for protection and security of your network equipment. A wide range ...

This precision air conditioning system delivers 5.5 kW (18,766 BTU) of cooling to your rack equipment to help prevent sudden shutdowns, malfunctions and other failures caused by overheating or fluctuating ...

It provides closed-loop precision cooling for reliably protecting mission-critical equipment from overheating in environments without room for a bulky in-row unit. It is also convenient for customers ...

Cooling your computer room, communications closet, data centre or outdoor equipment is becoming more vital than ever before. We offer a tailored solution no matter your cooling requirements.

CSPM's IRC series from CITEC is a pre-assembled self-contained solution integrated with key Data Center components within a compact rack unit which includes precision cooling, power management, ...
