

What is a steel storage rack?

Steel storage racks are a type of storage system made primarily of steel. They often have a more utilitarian design than decorative shelves and support heavier loads. Steel storage racks also often feature plastic feet to protect floors. Rona offers a range of sizes and varying numbers of tiers to meet your storage needs.

What is a galvanised steel storage unit?

Practical storage solution in galvanised steel for small spaces indoors or outdoors. Just as suitable on the balcony as in the hallway, kitchen or bathroom. Sturdy, lightweight and approved for wet areas. This storage unit is perfect for plant pots and plants ? and can easily be transformed into a greenhouse if you complete with HYLLIS cover.

What is a rack unit standard?

The rack unit standard is essential to the data center and IT infrastructure industries. Data center managers can invest in racks and cabinets with the assurance that any manufacturer's rack-mountable equipment will be measured by the same standardized height metric, RU.

Why do we have outdoor storage solutions?

When the sun starts to shine, we move outside to enjoy it. And so does a lot of stuff. That's why we have storage solutions for everything from tools and toys to plant pots and cushions. Turn your balcony into a multi-storey garden with our versatile outdoor shelving units where you can grow, store and show things off outside or inside your own.
