

Outdoor with forced ventilation tile steel Server Rack

What is an outdoor server rack?

AZE's outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The outdoor server rack cabinet comes with 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

Are outdoor server racks waterproof?

These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions. The waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably.

Are Aze server rack cabinets dustproof?

AZE's outdoor dustproof server rack cabinets are ideal for applications where your expensive and sensitive network equipment is exposed to environmental factors such as dust and water.
