

# Railway communication data rack IP65 steel

What is a IP66 19 stainless steel data rack?

IP66 19" Stainless Steel Data Racks designed for extreme duty to house sensitive data network equipment in harsh environments.

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

What are the different types of IP65 rated boxes?

IP65 rated boxes are available in plastic, aluminum and steel varieties. With a wide range of sizes and styles to choose from it's easy to find the perfect IP65 junction box or enclosure solution. IP65 enclosures are extremely versatile due to their ability to withstand dirt, dust, debris and low-pressure water jets.

How do I know if my server rack is ip45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.
