

Self-cooling network enclosures with waterproof housing

What is a self-contained server rack?

Explore self-contained racks at Server Racks Online, designed to provide a complete solution for housing and managing IT, server, and network equipment. These racks feature built-in cooling systems, power distribution, and noise reduction, making them ideal for offices, data centers, and AV setups.

What is a self-cooling rack?

Self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack installations, particularly at the edge of a network. The warranty on this product has expired. If you need assistance, please contact us.
