

What is a self-cooling rack?

Self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack installations, particularly at the edge of a network. The warranty on this product has expired. If you need assistance, please contact us. Need help with your purchase?

Why should you choose edgecool for your server rack?

EdgeCool is the recipient of the 2022 Top Tier Products Award for our innovation in energy efficiency and revolutionary design that allows target cooling to be self-contained within the rack. Now you can transform your server rack into a portable, energy-saving server room.

Can a server rack be a portable energy-saving server room?

Now you can transform your server rack into a portable, energy-saving server room. EdgeCool by DENSO brings data-center efficiencies down to the rack level -- and is the only split system designed for self-contained operation with any rack.

Can a rack be used as a server room?

Cool the rack, not the room. Hot and cold aisles keep air from mixing to ensure you get optimal cooling performance and energy savings. Simple installation turns practically any rack, open or sealed, into a portable, self-contained server room. Works with standard 120V/20A power -- no external components or building modification required.

Self-cooling, self-powering, and self-containing - the all-in-one solution for business that promises efficiency, scalability, and cost-effectiveness. As one of the most ...

Top self-cooling server rack manufacturers include APC, Rittal, Vertiv, Eaton, and Tripp Lite, offering racks with integrated cooling for efficient data center management.

Our factory-trained technicians provide a range of on-site services, including commissioning, maintenance and repairs, to help ensure your 3-phase UPS systems maintain peak performance ...

Find Self-Cooled Server Racks related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of Self-Cooled Server Racks information.

Thanks to Technology which made the concept a reality today. The Racks manufactured out of steel sheet punched, formed, welded and powder coated with highest quality standards under stringent ...

The SmartRack™; 5.5 kW self-cooling server rack enables end users to deploy standardized MDC solutions to support edge computing needs in enterprises, manufacturing, government, institutions ...

Discover pre-configured server racks at Server Racks Online. Shop ready-to-deploy racks with cable management, power options, and cooling solutions. Perfect for IT, AV, and data center needs. Save ...

Getwell 19 inch 42u Integrated Server Rack modular data center ISR Series, a Self Cooled, Self Powered & Self Contained Rack The Racks manufactured out of steel sheet punched, formed, ...

From 2008 we started to research and develop Micro Modular data center product and build own factory. Getwell pays great attention to R& D and its engineer teams include industrial designer, structure ...

Explore strategic sourcing of self-cooling server racks from China. Compare suppliers by cooling type, customization, and price--liquid-cooled models from \$2,200, air-cooled from \$100. Evaluate lead ...

Netrack- iRack Series, a server cooling irack and Server rack cabinets. The Racks manufactured out of steel sheet punched, formed, welded and powder coated.

EdgeCool is the recipient of the 2022 Top Tier Products Award for our innovation in energy efficiency and revolutionary design that allows target cooling to be self contained within the rack. Now you can ...

Find top-quality self-cooling server racks from China's leading manufacturer, supplier, and factory. Enhance efficiency and reduce costs with our innovative cooling solutions.
