

Yes. The JSON format has a lot of dead-space between elements and is space-insensitive in those regions, so there's no reason why you can't have single or multi-line comments there. Many parsers ...

Of course, the correct MIME media type for JSON is `application/json`, but it's necessary to realize what type of data is expected in your application. For example, I use Java Ext GWT and the server ...

I did it many times, and each time I forgot where it was. Menu File -> Preferences -> Settings. I get this: I want to open `file.settings.json` (editable JSON file) instead. How can I do that?

Support CleanTechnica's work through a Substack subscription or on Stripe. The new EcoFlow OCEAN Pro Solar Battery System is designed to do more than just keep the lights on. It's a ...

355 A JSON string must be double-quoted, according to the specs, so you don't need to escape `"`. If you have to use special character in your JSON string, you can escape it using character. See this list ...

The battery will only* charge when the solar is producing more energy than the loads are consuming. The battery will only* discharge when the loads are consuming from the grid. *Exceptions are:

There's something slightly magical about generating solar electricity yourself. By the simple act of the sun coming up each day energy arrives on earth ready for us to convert to usable, ...

Roof Bear does everything in-house -- roofing, electrical, HVAC, solar, batteries. That means no subcontractors, no workers' comp risks, no lien issues, and no strangers on your property.

What is the preferred method for returning null values in JSON? Is there a different preference for primitives? For example, if my object on the server has an Integer called `"myCount"`; wit...
