

Are stainless steel electrical boxes UL listed?

Stainless steel electrical enclosures provide protection in indoor and outdoor applications as well as an inherent level of RFI/EMI attenuation. Polycase's stainless steel electrical boxes are UL Listed to UL 508A, meeting NEMA 1,2,4,4X and 12 ratings and IP65 and IP66 requirements for harsh environments.

What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Are polycase electrical boxes UL rated?

Polycase's stainless steel electrical boxes are UL Listed to UL 508A, meeting NEMA 1,2,4,4X and 12 ratings and IP65 and IP66 requirements for harsh environments. Manufactured from 304 stainless steel, they're a top enclosure choice for corrosion-resistant, waterproof and weatherproof protection.

Why should you choose stainless steel boxes?

Our stainless steel boxes include mounting hardware that make them easy to use as wall mount enclosures, plus features such as hinged covers that allow convenient access to interior components. Security: On the other hand, access control is also crucial.
