

Stainless steel data rack metal vent replacement

What size are rack vent panels?

Rack vent panels are 19-inch wide and come in a range of heights, from 1/2 space to 4 rack space sizes. Constructed of steel or aluminum, our filler panels and vent panels come flat or flanged for extra strength. Panels and vents are available with durable powder coating or high aesthetic brushed and anodized finish.

Does rackmount solutions offer server rack blanking panels?

Rackmount Solutions offers a variety of high quality steel and aluminum server rack blanking panels and selection of specialty rack panels. Made to fit 19 inch server racks, these rack panels make your rack more energy efficient! We offer a range of blanking filler panels, both flat and flanged, to suit your server rack filler panel requirements.

Where can I find rack panels?

At RS, we stock a wide range of rack panels, in various sizes and materials. Whether you need blanking off plates to patch up the unused space or punched versions for mounting connectors and other equipment, you will find it here at RS. With our range of rack panels, you can be sure to find the right product for your set-up.

What are the different types of rack panels?

Metal rack panels are very durable, while glass rack panels allow you to look at the equipment that is mounted inside without the need to remove the panel. Plastic or fibre composite rack panels are a good all-purpose option to patch up rack frames and save cost.
