From IT racks to network racks to data racks and more, we have the solution for your application. Premium rack enclosures for advanced applications, including real device testing racks, RF/EMI shielded racks, smart server racks, pre-customized data center racks, and more.

What is a rack & enclosure?

In their most basic applications, racks and enclosures provide a structure in which to mount IT equipment such as servers, switches, routers, UPS systems, A/V equipment and more. In addition, when chosen correctly, they help manage the equipment's cables, allow proper airflow and even provide an added level of organization and security.
