

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What is a battery enclosure box?

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery enclosures can be pole-mounted or ground-mounted and are suitable for indoor and outdoor applications.

Do I need a battery enclosure for my off-grid system?

If you're using batteries with your off-grid system, you will need to protect them from the elements and separated from living areas. Often that means a dedicated enclosure. We supply various sizes of enclosures for holding batteries and associated electronics.

How many batteries can a metal battery box hold?

We supply various sizes of enclosures for holding batteries and associated electronics. Our most popular metal battery boxes are the NEMA 3R (rainproof), mill finish aluminum boxes, which can hold from a single battery up to 6, 8, or 10 if pad mounted. Many standard mill finish aluminum metal battery boxes are in stock, ready to ship.

Pick a strong outdoor battery cabinet to shield batteries from bad weather. Check for high IP or NEMA ratings for better protection. Choose a cabinet that fits your solar system's needs. ...
