

Choosing the right AC unit for a metal building ensures year-round comfort and energy efficiency. This guide explores the best air conditioning options for steel and metal buildings, the ...

Choose Your Cooling Technology Schneider Electric offers a variety of cooling technologies to suit your specific needs: Direct Expansion Air Cooled units (SDAV-SUAV): Highly efficient mechanical cooling ...

Self-cooling, self-powering, and self-containing - the all-in-one solution for business that promises efficiency, scalability, and cost-effectiveness. As one of the most ...

DIM : L800 * W880 * H1600mm FEATURES : No Mall Ducting Required: Avoid expensive and restricted ceiling penetrations with this self-contained ventless hood solution. Space-Saving Design: A compact ...

In some cases it makes sense to build multiple steam turbines to allow more cooling (for example a Metal Refinery requires around 2 self-cooling Steam Turbines, if you don't want to throttle the rate ...

Indoor Self-Contained Unit 30 to 60 Nominal Tons The 50BVT indoor water-cooled packaged units are designed for vertical installation, a variety of airflow configurations, and cooling only operation.

Indoor Self-Contained Unit 18 to 30 Nominal Tons The 50BVJ indoor water-cooled packaged units are designed for vertical installation, a variety of airflow configurations, and cooling only operation.

Eaton's self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack ...

The 50XCW indoor water-cooled packaged units are designed for vertical installation with multiple return air and supply air configurations. These units provide a practical and economical approach to comfort ...

United Faith Sdn Bhd - Indoor Self-Contained Air-Conditioning Units Packaged Indoor, One of the leading suppliers to the refrigeration and air-conditioning industry for spare parts, tooling, ...

DIM : L1600 * W880 * H1600mm FEATURES : No Mall Ducting Required: Avoid expensive and restricted ceiling penetrations with this self-contained ventless hood solution. Space-Saving Design: ...

Buy Eaton SmartRack Self-Cooling 42U Server Rack Enclosure with Single-Phase 5.5 kW (18,766 BTU) Cooling Unit, 208V, 60Hz at SHI. See detailed specifications and benefit from expert support. Shop ...

Trane Water-Cooled Self-Contained Units Next-Gen SWUD Balance cost and efficiency with a

high-performing self-contained system. Now with a smaller footprint and environmentally friendly ...

Our Water Cooled Package is the perfect solution for any industrial application. It features a robust construction and efficient cooling technology to help ensure your system runs at its optimal temperature.

Indoor Self-Contained Unit 30 to 60 Nominal Tons The 50BVV indoor water-cooled packaged heat pumps are designed for vertical installation, a variety of airflow configurations, and heating/cooling ...

Condensing Units Manufacturer in China Alright, let's talk about something crucial if you're in the business of keeping things cool - Condensing Units. You ever walk ...

Indoor Self-Contained Unit 20 to 30 Nominal Tons The 50BVC indoor water-cooled packaged units are designed for vertical installation, a variety of airflow configurations, and cooling only operation.

Indoor Self-Contained Units 30 to 60 Nominal Tons The 50BVW indoor water-cooled packaged units are designed for vertical installation, a variety of airflow configurations, and cooling only operation.

Custom Made Condensing Unit Thermal-Matic Systems Sdn. Bhd. was established in 1986. Thermal-Matic produces wide range of fin coil which include cooling coil, condenser coil; hot water coil and ...
