

Vissani 30 Gallon underground unit IP55 IP65

What is the difference between IP55 and IP65 enclosures?

Just like IP55, it can also handle water jets from any direction. But IP65 enclosures are usually built stronger, so they last longer in rougher conditions. In short, IP65 gives better protection, especially if you're dealing with lots of dust or moisture.

What is the difference between IP55 & IP65 nozzles?

The IP55 rating similarly provides protection against water spraying out of a nozzle from any direction. The IP65 rating is significantly more robust and offers increased protection against dust intrusion, so you can expect considerably reduced dust particles entering into your equipment.

Is IP55 waterproof?

Since regulators hold manufacturers to such rigorous standards, most businesses want to maintain at least an IP55 rating. This rating has limited protection from dust and water, making it an option for indoor and outdoor uses. However, products with an IP55 rating are not waterproof. What is IP65?

Should I choose a Saipwell IP55 or IP65 enclosure?

Trust Saipwell to protect your equipment and enhance your operational efficiency. Choosing between IP55 and IP65 depends on your specific requirements. IP55 enclosures are a cost-effective choice for moderate environments, while IP65 enclosures offer superior protection in harsh conditions.
